Times New Roman # 10

Abstract

Your Manuscript will appear in A4 sized photocopy exactly the same as it is received. Please flow the guideline explicitly. English papers should begin with the English abstracts. No Thai abstract is required. The abstract should include a concise statement of objectives and a summary of important results.

Keywords: submission procedure, manuscript format, font size, font style, blank line

1. General Information

Contributed papers are limited to 4 pages including all figures and tables. Invited papers have an 8 pages limit. Each manuscript typically contains the following sections: Title, Author's name (no academic position is required.), Address in details (give phone and fax numbers, if applicable), Abstract, Text, Acknowledgment (if preferred), and References.

2. Style and Format

2.1 General

Manuscripts are typed single space except for headings. Font type should mimic Times New Roman #10 (shown here). Right-hand justification is recommended.

Type your manuscripts on A4 (21 cm x 29.7 cm) sheets. The manuscripts must also be typed in the correct two-column width as shown in this paper. The sheet should be divided into a two-column width of 81 mm with a space between columns of 6 mm (a total width of 168 mm). This permits side margin of 21 mm each. The top and bottom margins should be 29 mm.

2.2 Title Block

The title should appear in upper and lower case without underlining, centered across both columns. Type the author's name and affiliation also in upper and lower case letters centered under the title. In case of multi-authorship, group the authors and identify each author by superscript numbers corresponding to the organization which should be grouped below authors.

2.3 Headings and Subheadings

Headings and subheadings are in upper and lower case bold letter without underlining, if applicable. They should appear with sequential numbers, left-hand justified in the column.

2.4 Equations

Equations are to be numbered consecutively throughout the text. The equation number should be placed in parenthesis and flushed with the right-hand margin of the column. Italic alphabets are recommended for equation parameters.

$$a + b = c \quad (1)$$

Leave a blank line before and after equations. A long equation should appear across the columns by interrupting the opposite column with column-termination and column-initiation bars.

3. References

References are to be listed and numbered at the end of the papers. Refer to them in the text as [1].

4. Illustrations

Figures, tables and line drawings should be positioned within the text. They may conform to either a one-column or two-column width and must be black ink or high contrast black-and with reproductions. They must include captions.

5. Conclusions

Your paper should be carefully checked.

6. Acknowledgment

Thank you for your cooperation.
