

Status of Philippine Journal Citation Index Database

Allan A. Sioson
Ateneo de Naga University

3rd ACI Steering Committee Workshop

10 September 2015

What is the Philippine Journal Citation Index Database (PJCID)?

SEAMEO Regional Center for Higher Education and Development. Conference Report – 1st Conference on Pioneering ASEAN Higher Education Research Clusters, 26 – 27 November 2010. Amari Watergate Hotel, Bangkok, Thailand.

What is the Philippine Journal Citation Index Database (PJCID)?

- PJCID is a database that tracks the citations of papers published in Philippine Research Journals.
- Funded by the Commission on Higher Education (CHED) of the Philippines.
- Limited to 44[†] Journals, issues up to 2012 [20 Natural Sciences, 21[†] Social Sciences, 3 General Areas].
- Vision: A system that retrieves information about research articles published in Philippine Journals and measure the research productivity of Higher Educational Institutions (HEIs) and various Professional Organizations in the Philippines. (*Help increase visibility of research articles*)

[†] one discontinued title.

Objectives

- Design, Implement, and Deploy *citeTracker*:
 - * Database System that tracks Journal Citations
 - * Web-service that allows search for articles that matches keywords, provides abstract and cited articles, and displays average citation reports – developed using Open-Source Development Tools and Software Libraries
 - * Web-based journal records management system used for data encoding and citation tracking
- Populate the database with records of papers published in 44[†] out of 48 Journals accredited by CHED from 2009–2012.

† one discontinued title

Citation Measures and Reports

Why measure citations? *Because it is used as proxy for the overall importance of a journal within a set of journals (possibly in the same field).*

Thomson Reuters and Scopus Citation Measures

- Thomson Reuters:: Impact Factor (IF) is the average number of citations received per paper published in that journal during the two preceding years.
- Scopus:: Source Normalized Impact per Paper (SNIP) measures contextual citation impact by weighting citations based on the total number of citations in a subject field.

Journal Citation Measures considered in PJCID

- Impact Factor
- Three year Average Citation

Citation Reports in PJCID: ○ Journals ○ Publishers ○ Authors

PJCID Search

The screenshot shows a web browser window with the URL `pjcid.adnu.edu.ph/`. The page title is "PJCID | Home". The browser's address bar shows the URL and a search prompt: "Press [tab] to search pjcid.adnu.edu.ph". The page content includes the PJCID logo, the text "Philippine Journal Citation Index Database", and two logos: the Commission on Higher Education (CHED) logo and the Ateneo de Manila University logo. A navigation menu contains "Home", "Citation Reports", and "About". The main text describes the database's purpose and provides a link to the "About" page. A search form is located below the text, featuring a search input field with the text "(SHOW ALL)", a "Search" button, and radio buttons for search criteria: "Title", "Author", "Abstract", "Keywords", and "Journal" (which is selected).

PJCID
Philippine Journal Citation Index Database

[Home](#) [Citation Reports](#) [About](#)

The **Philippine Journal Citation Index Database** (PJCID) aims to become the largest database that index the citations of research articles in Journals published in the Philippines. Through PJCID and the Journal Accreditation Service of the Commission on Higher Education of the Philippines, the research of Higher Educational Institutions and various National Professional Organizations may be tracked and utilized for National development.

For more information about PJCID and how to join the service see the [About](#) page.

Search in Title Author Abstract Keywords Journal

A total of **1662 articles** from **44 journals** are currently recorded in the database.

PJCID Search Results

The screenshot shows a web browser window displaying the PJCID search results. The URL is pjid.adnu.edu.ph/tsearch.php?key+=Education&searchIn=keywords. The page title is "PJCID Philippine Journal Citation Index Database". The search results show 60 results found for the keyword "Education" in 0.11403 seconds. The results are displayed in a table with columns for No., Keywords, and Citation. The first result is a journal article by Olivia De Leon, Lourdes Robles, Daisy San Juan, Joselito Binaluyo, and Glenn Ison, published in the Journal of Higher Education, Volume 4, Issue . 2010. The second result is a journal article by Ferdinand Abocjo and Roberto Padua, published in the Journal of Higher Education, Volume 4, Issue . 2010.
