"Gotoh Educational Corporation Tokyu Group Scholarship"

for the Graduate Schools of Tokyo City University

This scholarship is open to privately-financed international students entering a Master's program at Tokyo City University (TCU) and who wish to continue to a doctoral program. It is intended to partially cover the expenses of establishing a suitable study environment. The goal of this scholarship is to educate leaders who, building on their research and achievements at TCU, will take an innovative role in an international society. You are eligible, if you have achieved **academic results within the top ten percent at a designated partner university of TCU (within the top ten percent of universities ranking in your country).**

Graduate Schools of Tokyo City University:

- Graduate School of Integrative Science and Engineering
- Graduate School of Environmental and Information Studies

Important Dates:

Prior Consultation Form: Due by October 22, 2021

Application Documents: Due by October 29, 2021

Overall impression of the program

Being a graduate student at TCU has been a life-changing experience for me. It has allowed me to appreciate and immerse myself in a new culture which in turn has widened my perspectives towards the world. In addition, the professors and fellow research students at TCU have been highly supportive and helpful in achieving my academic goals. Not to forget, the peaceful and enigmatic dormitory life is a perfect place to unwind and meet amazing individuals from all around the world and of course, it is incredible, and culturally enriching to live and study in a stunning neon city like Tokyo.

I am certain that the scholarship program would be a stepping-stone to acquire global skills and unlock personal and professional opportunities for one's future. I am glad I seized the opportunity!

Anchali Kalidason, Doctoral Program Student from Malaysia

(Graduate School of Integrative Science and Engineering, Chemistry Domain)
